PATCH KIT

Cat. #74708
 (\$1,147 VALUE)

Cat. #74718
 (\$1,615 VALUE)

WHY PATCHING

- | Residential & Multi Family: no need to dig up landscaping, plants or driveways and don't need to disrupt tenants
- | Commercial: no need to disrupt customers or business productivity
- | Industrial: no need to close sections of a plant floor or incur high machinery setup and teardown costs
- | Medical: no need to close rooms/wings of a hospital or incur high machinery relocation costs

WHEN TO PATCH

Patching is a valuable solution in numerous scenarios. Here are some of the most common:

- | Only a small section of pipe needs to be repaired
- | Budget restraints where excavation and/or full-length lining are too costly
- | Environmental impact and disruption make replacement difficult
- | Too many bends for full length lining to navigate
