YOUR LOCAL, IN STOCK PAPR SOLUTIONS

When comfort is designed into respiratory protection products, workers can focus on the work and not the PPE. The 3M™ Versaflo™ Powered Air Purifying Respirator (PAPR) is engineered for versatility and customization, so safety managers can build the system that works for their employees. Choose from a wide range of headgear, breathing tubes and blower units to customize a PAPR solution that works for your environments.

Long Lasting Comfort

3M™ PAPRs deliver filtered air, all shift long, for respiratory protection and comfort your employees will want to wear.

Limited Fit Testing

Loose fitting hoods and helmets eliminate the need for fit testing. Tight fitting facepieces used with PAPR assemblies are required to be fit tested.

Integrate Other PPE

Some of the 3M PAPR systems provide the option for combining respiratory, head, eye and face protection, that can be customized for almost any work environment

Protection for your industry

From heavy industrial, construction and transportation to pharmaceuticals and healthcare, 3M PAPRs can be used in multiple environments.

Ready to select your PAPR? Call Raider Hansen at 1 800 665 2658.

THE NEXT GENERATION OF HEARING PROTECTION.

ISOtunes are industrial-grade hearing protection earplugs and earmuffs with built-in 3-in-1 technology to allow users the ability to isolate harmful noise, stream music, and take calls - all from a single device.

FREE AWARE

- Aware Technology offers complete situational awareness and protection from harmful noises
- Up to 13 hours of battery life
- Up to 25 additional hours with charging case
- Background noise reducing microphone for clear communication in loud environments
- Bluetooth 5.2 connects devices up to 30'
- Siri/Google Voice Compatible
- ISO-IT-15

DEFY SLIM

- Tactical Sound Control Technology enhances your hearing up to 8x
- Rechargeable Battery provides up to 11 hours of connection
- AAA Battery provides up to 11 hours of connection
- Bluetooth 4.2 connects and dual-connects devices
- 21 NRR tested and approved to ANSI s3.19-1974
- Noise-Isolating Microphone for clear communication in loud environments
- ISO-IT-43

PRO AWARE

- Aware Technology offers complete situational awareness and protection from harmful noises
- ANSI-certified 26 dB NRR | CSA Class AL
- Up to 10 hours of battery life
- Noise-isolating microphone for clear communication in loud environments
- Bluetooth 5.0 connects, and dual-connects, devices up to 30'
- Siri/Google Voice Compatible
- ISO-IT-38

CREATING SAFER WORK ENVIRONMENTS

COMPLIANCE

Prioritize safety on your site.
Manufacturers require equipment to be inspected annually by a certified, competent individual.

DUE DILIGENCE

Offers your site regulatory compliance with inspection management on your equipment.
We look for wear patterns that indicate an alternative product that may be more effective.
Failed items are tagged and disposed of.

EFFICIENCY

Free up your safety officer's valuable time.
New equipment is inspected and tagged with RFID technology prior to purchase.

TRANSPARENCY

Detailed inspection results are documented on our web-based system.
Available to you either annually.
High-visibility tags for greater visual control.

CERTIFIED

Our inspectors are trained and certified competent.
Annual colour coded tags for ease of tracking inspection status at a glance.

CONVENIENT

Inspections can be performed on site or at our facility.
Failed items can be disposed of properly or, in some cases, set aside for training purposes.

Checklist Details

Category	Question	Answer	Issue Notes	Issue Images
DISCLAIMER	This is a generic checklist. Ensure that checklist questions align to manufacturer's instructions. There is no response required.		N/A	
HARDWARE	Inspect harness hardware (buckles, D-rings, back pad, loop keepers); These items must not be damaged, broken, distorted, and must be free of sharp edges, burrs, cracks, worn parts, or corrosion.	Pass	N/A	
HARDWARE	If present, PVC coated hardware must be free of cuts, rips, tears, holes, etc. in the coating to ensure non-conductivity.	Pass	N/A	
HARDWARE	If present, quick connect buckles must be inspected to ensure the release tabs work freely and that a click is heard when the buckle engages. Ensure that release tabs on buckles work freely and that a click is heard when the buckle engages.	Pass	N/A	
HARDWARE	If present, vertical torso adjusters must be inspected for proper operation. Ratchet knobs should turn with ease in a clockwise direction and should only turn counterclockwise when the knob is pulled out.	Pass	N/A	

ABOUT US

Established in 1959, **Raider Hansen** is the largest independently owned and operated distributor of supplies and services to the industrial and construction business sectors in British Columbia. With 9 branch locations, we are one of BC's largest distributors of safety equipment, fasteners, tools, abrasives and chemical supplies.
